**Mon Site Vert is the promise of
an efficient and environmentally
responsible website**

”

Mon Site Vert team

Our field of action

The tool

Mon Site Vert is above all a website creation and editing tool available to all agencies and integrators who want to have an innovative solution for a green website.

Made for agencies

Basically, agencies don't want or don't have time to integrate their websites. We can integrate your websites on Mon Site Vert tool for you.

Our CMS editor : Mon Site Vert

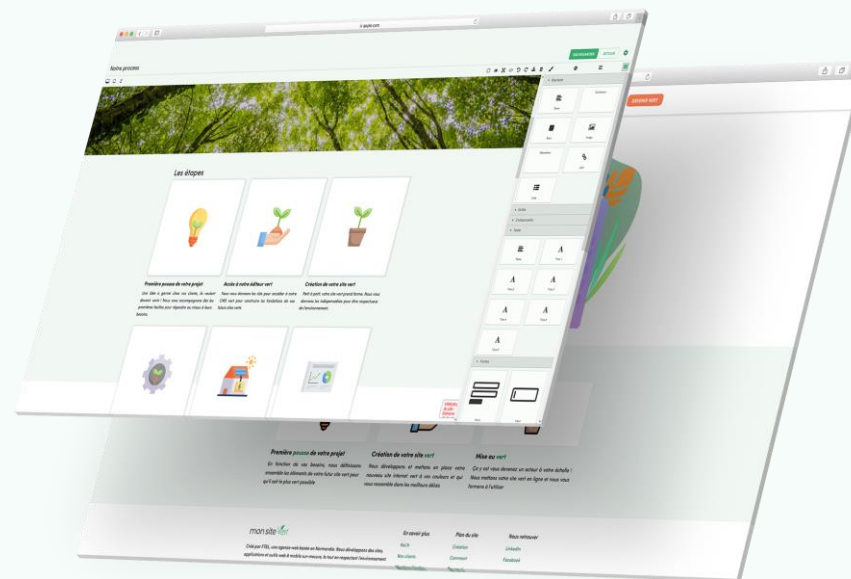

A tool for an **efficient** website

- Mon Site Vert allows you to create and edit websites in an eco-designed way. The tool optimizes the code and media to be environmentally friendly.
- Moreover, Mon Site Vert allows you to have efficient websites, not only from a technical point of view, but also from the point of view of the SEO.

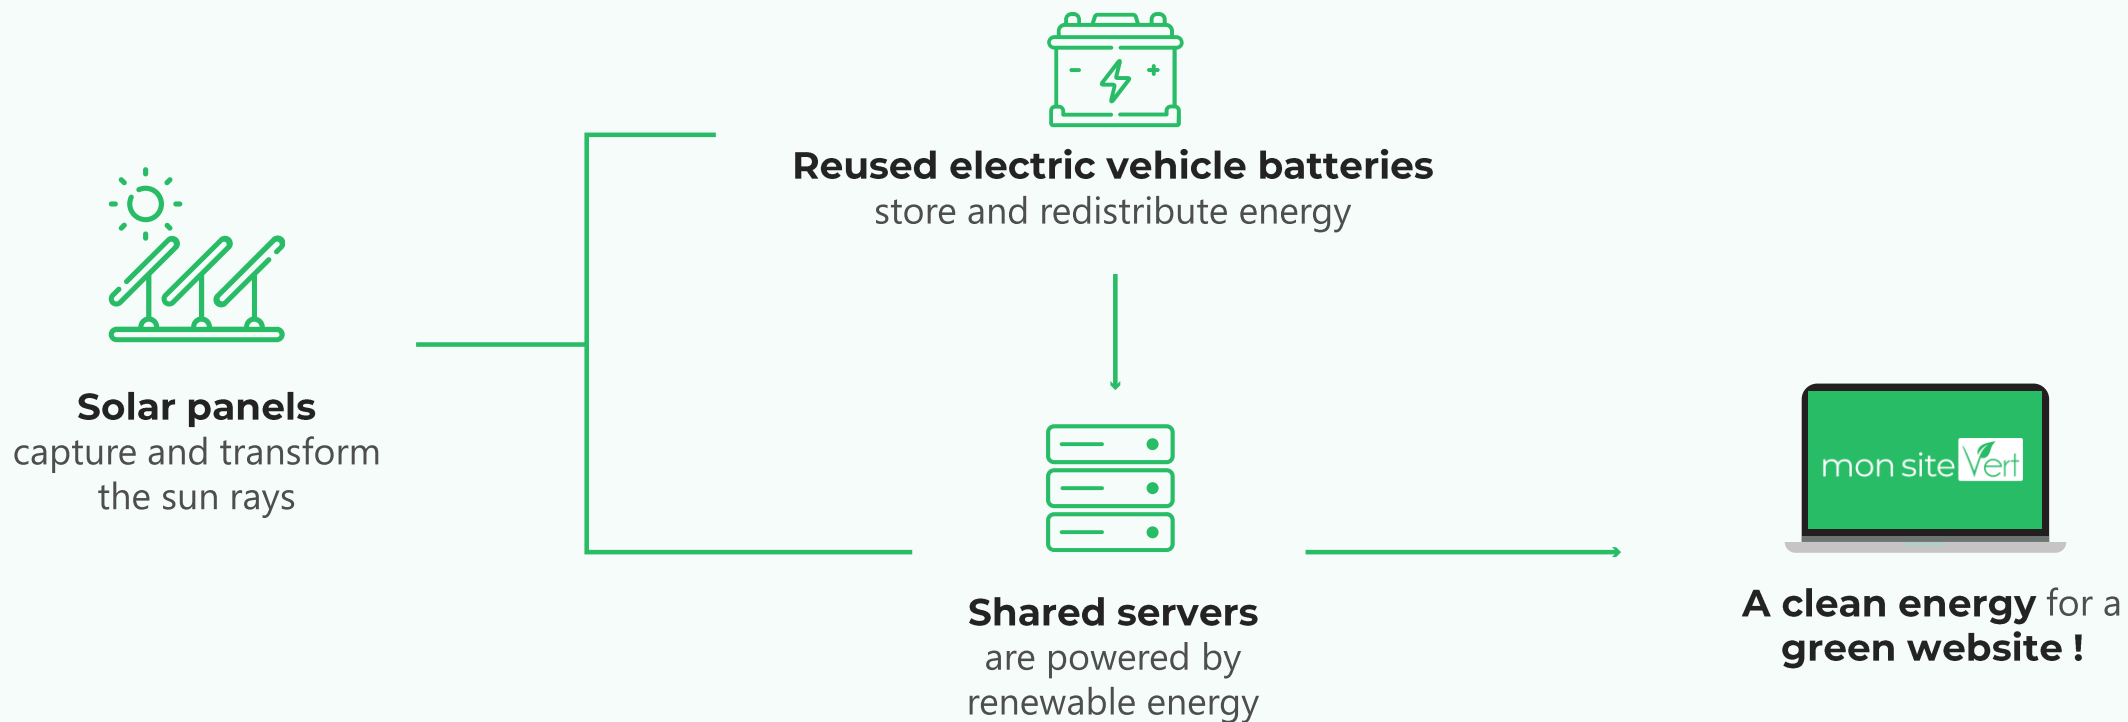

A **self-sufficient** functioning

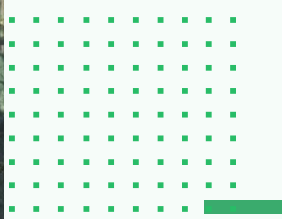

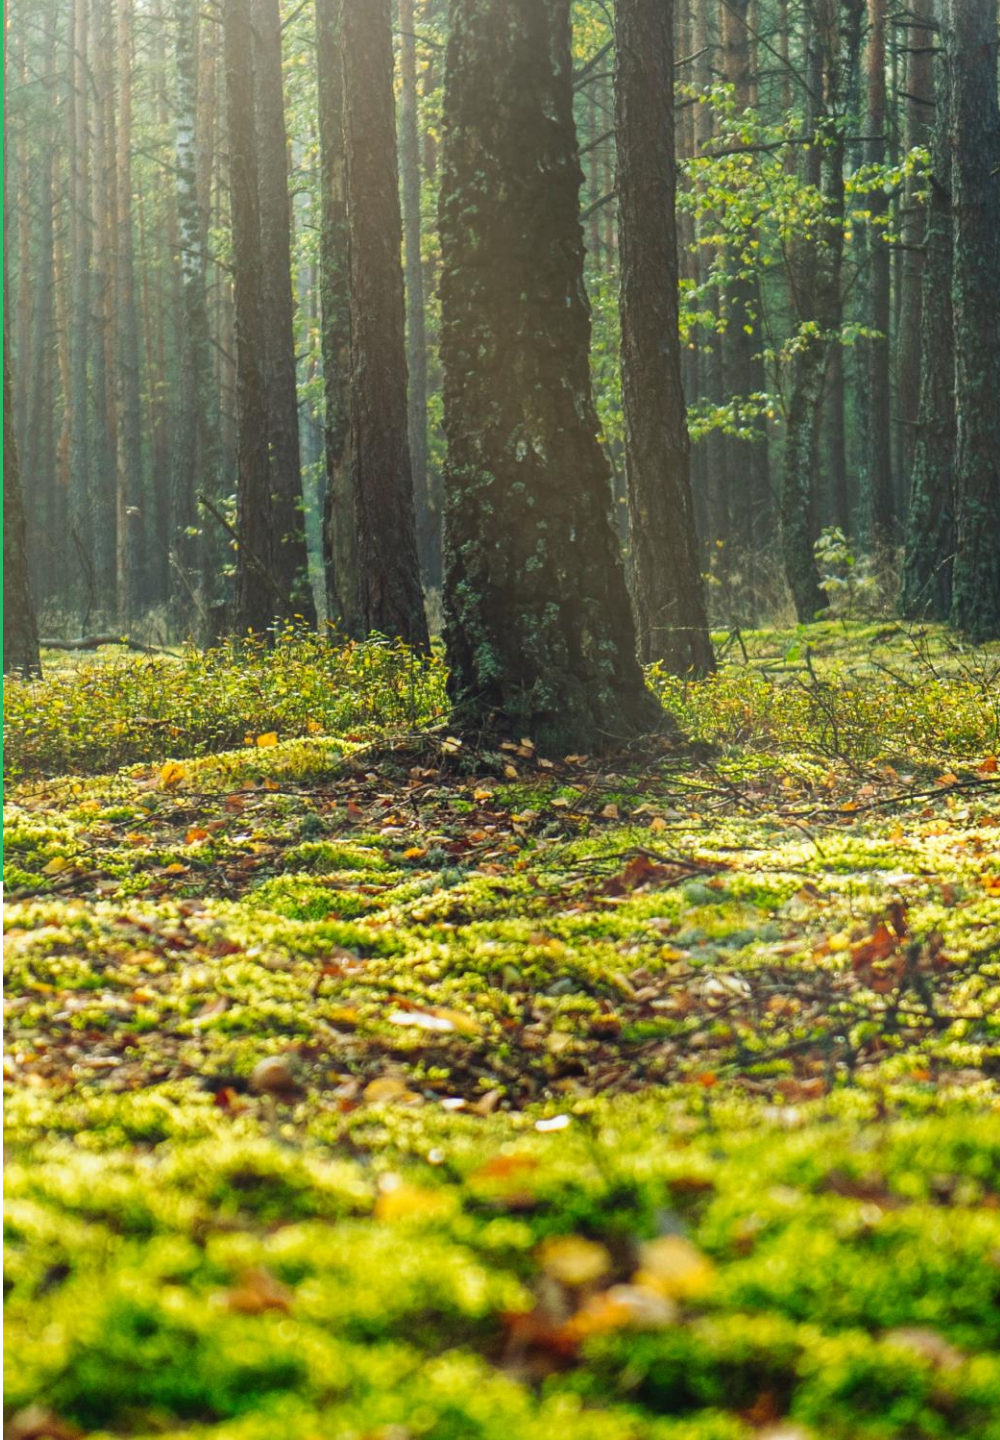

With Mon Site Vert tool, thanks to the optimization of the whole chain, we almost reach a carbon neutrality for all the websites created : **it means 0g of CO2 emitted.**

And hosting ?
